## TWO DAYS NATIONAL WORKSHOP ON STATISTICAL ANALYSIS AND INTERPRETATION USING SPSS FOR BUSINESS ANALYSIS

The abbreviation SPSS stands for “Statistical Package for Social Sciences”, that is a comprehensive system for analyzing data. SPSS package consists of a set of software tools for data entry, data management, statistical analysis and presentation. SPSS integrates complex data and file management, statistical analysis and reporting functions. SPSS can take data from almost any type of file and use them to generate tabulated reports, charts, and plots of distributions and trends, descriptive statistics, and complex statistical analysis.

The post graduate department was taking initiative to provide the complete knowledge on the above said aspects. It also focused on complex statistical analysis like correlation, regression, one sample t-test, one way ANOVA and factor analysis. Students from different states have attend the workshop, where real time hands on training has been provided, each students have been provided with individual system, and practical analysis training was provided.
