## Overview

The Institution ensures the attainment of POs and COs are practised regularly.

The choice of assessment tools enables the testing of learning levels as per Bloom's taxonomy which is suited to test the cognitive learning level of the students that the outcome demands. The attainment of POs and PSOs are measured through attainment of COs. The institution employs **Direct and Indirect Assessment** tools for the measurement of COs/POs.

### Direct Assessment

The PO attainment is assessed by the Internal and University examination (Theory and Practical) Viva-Voce, Projects, Dissertation.

### Indirect Assessment

The attainment is reflected in the form of Higher Studies, Result Analysis, Exit Survey, student Satisfaction survey, Feedback system, Academic Achievements, Sports Achievements and Placements.

The mapping of COs with POs and COs with PSOs are carried out by the teachers as a part of teaching-learning and evaluation plans. Each departments heads present a CO-PO attainment report to the head of the institution.

The PSOs are measured by taking the aggregate result of all courses of a programme of a student and the average performance of all the students in the programme. The assessment calculation of direct attainment is 80% and for Indirect attainment is 20%. For a course, mapping of COs to POs/PSOs is done through the CO-PO/PSO matrix.

**The correlation levels are:**

**"1"-SLIGHTLY (LOW) CORRELATION**

**"2"-MODERATE (MEDIUM) CORRELATION**

**"3"-SUBSTANTIAL (HIGH) CORRELATION** CIA contributes CBCS 30% IA and End Semester Examinations (ESE) 70% for NEP 40% IA and 60% ESE

### Bloom's taxonomy

Bloom's taxonomy of learning has evolved over time and is a tool commonly used to write learning outcomes and classifies learning outcomes according to the following 3 domains. For each domain, you can select from a list of measurable verbs. These verbs are measurable in the sense that they can be demonstrated by the learner and therefore they can be assessed. For each domain, measurable verbs are categorized and arranged on a spectrum from simple to complex, concrete to abstract.

LEVEL	DESCRIPTION	MEANING	ACTION VERBS
6	Creating	Can the student create a new product or POV?	Assemble, construct, create, change, combine, compose, design, develop, formulate, invent, modify, organize, propose, theorize, write
5	Evaluating	Can the student justify a stand or decision?	Appraise, agree, assess, argue, conclude, decide, defend, judge, prioritize, prove, rate, recommend, select, support, value
4	Analyzing	Can the student distinguish between different parts?	Contrast, compare, criticize, differentiate, discriminate, dissect, distinguish, examine, experiment, operate, question, simplify, test
3	Applying	Can the student use information in a new way?	Choose, demonstrate, dramatize, employ, illustrate, interpret, schedule, sketch, solve, use
2	Understanding	Can the student explain ideas and concepts?	Classify, describe, discuss, explain, identify, infer, locate, outline, paraphrase, recognize, report, summarize, select, translate
1	Remembering	Can the student recall or remember information?	Define, duplicate, find, list, label, match, memorize, name, omit, recall, repeat, state, spell, tell

### **Assessment Process**

Attainment of COs can be measured Direct and Indirect Assessment. Direct attainment of COs can be determined from the performance of students in internal assessments/assignment and in University Examination of a course.

#### **DIRECT ASSESSMENT**

Internal Test, Project, Internship, Field Visits and University Examinations

#### **INDIRECT ASSESSMENT**

Higher Studies, Result Analysis, Exit Survey, student Satisfaction survey and Feedback system.
